

Tropiflora wins the Presidential Export Award as “Highest Foreign Exchange Earner” in Floriculture

Tropiflora was created 1980 by the Swiss Agrotropic and Sri Lankan partners. It became the pioneer in ornamental cutfoliage in Sri Lanka. Today we are proud to be the largest exporter of cutfoliage from Sri Lanka, shipping to 13 countries worldwide.

We employ 180 experienced and dedicated professionals, many of whom look back on years of career at our company. Our network of small out-growers consists of around 70 family businesses from whom we have been sourcing for many years, with a long term approach.

TROPIFLORA SRI LANKA

OUR SERVICES:

-  Wide and deep assortment available year round, grower network to boost volumes for peak days
-  Bespoke assortments for retail and wholesale market strategies (bouquets, templates, mix boxes, sub-master boxes)
-  Quality minded, reliable, flexible, communicative and service oriented
-  Lots of creative input due to worldwide exports, own lab, research facility and photo studio
-  Our harvesting and packing processes make our products fit to pass even advanced border inspections as conducted in Japan and Australia
-  Extensive product database available for product designers
